

Introducing The All New

Hunter 27 *Edge*

Multi-Purpose Family Sport Boat
from Hunter Marine Corporation

The new Hunter 27 *Edge* offers boaters a new level of integrated design. The *Edge* combines the freedom of sailing with the flexibility of a powerboat - combined in a trailerable package.

Depending on the weather, or your own desire, you can choose to raise the sails - or lower the engine. Sailing, fishing, sightseeing, swimming, and wake-boarding are all part of the on-water family activities the *Edge* can bring to your leisure time. The unique hull shape allows for excellent sailing characteristics, plus provides a stable platform for planing under power. Trailerability is enhanced with a swing keel, water ballast, plus a simple mast raising system.

The interior features two double berths, a generous galley and large salon, accented by warm Cherry laminates. 1.8m (5'11") headroom and large windows enhance the spacious feeling for days and nights aboard.

The new Hunter 27 *Edge* is available for delivery beginning September 2008 at your nearest Hunter distributor. Visit www.huntermarine.com for further details and distributor locations.
